"He shows a depth of experience and a quiet professionalism that other comedians could well learn from." *The Independent*

"Moloney's comedy is in defiance of the trend towards sophistication. His technology consists of a microphone and....that's it. His gags are stripped down and rapid, his delivery is suitably clipped. No fat on this show."

The Sunday Times

"A wondrous array of classy gags. Comedy scholars, plus folk needing a right good laugh, can choose from a wide range of quality Moloney originals. Take your pick from droll one-liners; coruscating bits of political satire, absurdist observations; gleeful schoolboy puns and observant re-interpretations of everyday phenomena. In addition, they're all delivered with a measured dryness and quiet understatement, too. Masterly." *The Herald*
